Major Connection Point for two or more transit companies

Logos indicate which transit companies serve the Connection Point.

Connection Point boxes in the lake indicate route numbers serving the Connection Point.

How To Read Bus Route Numbers and Notes

+ A '+' indicates that all branches run along that portion of the route. For example, 87+ indicates the presence of all branches: the 87, the 87A, the 87B.

, A ',' separates each branch in a route box where only some of the branches follow that portion of the route. For example, 87,A indicates that the 87 and the 87A are present; the 87B is not. Alternatively, 87A,B indicates the presence of the 87A and the 87B, but not the 87.

87B A rectangular box indicates a route end point or a branch of a route end point.

87+ A pointed box is angled to show the direction of travel.

85E A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.

141 A yellow pointed box shows the direction of travel on Downtown Express and Rocket routes.
