York Region Transit (YRT) provides a variety of convenient transit services for our customers. We make travelling easy by offering over 50 YRT routes, contracted TTC routes, as well as connections to many GO Transit travel options. In addition to our many routes, YRT offers other beneficial services for our customers including, Park 'n' Ride, Request Stop, direct travel to York University and connections to GO Train stations for only 25 cents.

The TTC is working with York Region Transit to provide convenient travel options for our customers. There are many TTC routes that operate directly between York Region and subway stations in the City of Toronto. North of Steeles Avenue, these routes operate like regular YRT routes. This means you can travel between York Region and the City of Toronto without changing buses. **How the fare system works when travelling on TTC and York Region Transit:**

- If your trip is north of Steeles Avenue, board the TTC bus and pay the South York Region fare.
- If you are traveling across the City of Toronto boundary at Steeles Avenue, you will have to pay the TTC fare as well as the South York Region fare when you board the bus. The driver will give you a proof of payment transfer.

**York Region Transit Mobility Plus**  
York Region Transit offers several transportation choices for people who are unable to use regular public transit because of physical disabilities. You must register to be eligible for specialized bus services. Call our Mobility Plus office at 905-762-2112 or 1-866-744-1119 for more information.

Remember to stand behind the white line when the vehicle is in motion. Move to the rear and stay clear of the doors. To tell the driver you want to get off at the next stop, pull the cord overhead, or push the button, as soon as the vehicle leaves the previous stop.
