Transit Connection Points

Long Branch — GO TRAIN — Connection not at Subway Station.
Kipling — GO TRAIN — Connection at Subway Station.

"Connection Point" boxes, which reference specific locations on the map, indicate the transit properties and their routes served at those locations. Transit properties are indicated by their respective logos.

How To Read Bus Route Numbers and Notes

+ A '+' indicates that all branches run along that portion of the route. For example, 87+ indicates the presence of all branches: the 87, the 87A, the 87B.

, A ',' separates each branch in a route box where only some of the branches follow that portion of the route. For example, 87,A indicates that the 87 and the 87A are present: the 87B is not. Alternatively, 87A,B indicates the presence of the 87A and the 87B, but not the 87.

87B A rectangular box indicates a route end point or a branch of a route end point.

87+ A pointed box is angled to show the direction of travel.

85E A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.

141 A yellow pointed box shows the direction of travel on Express and Rocket routes.
