Route extension to new Terminal 1

Effective Sunday, August 1, 2004

The 58 MALTON, 307 EGLINTON WEST, and 300 BLOOR-DANFORTH routes will be changed to serve Terminal 1 at Pearson Airport. There will be no changes to service levels at most times of the week. Minor changes will be made to service levels on the 58 MALTON route during the peak periods and early evening from Monday to Friday. With this change, all TTC bus routes operating to the airport will serve all three terminals.

Routing details

Over the present route west on Airport Road, to Terminal 3 Departures, then to Terminal 2 Arrivals, then to Terminal 1 Ground, then eastbound on Airport Road to existing route.

Service west of Pearson Airport on the 58 MALTON route is operated by the TTC for the City of Mississauga. An additional fare is required when crossing the fare zone boundary at Jetliner Drive and Airport Road, in either direction.

Schedules are posted at all transfer points along this route.
