Temporary service - road construction

Effective Sunday, July 30, 2006

A temporary service will be operated in order to reduce delays during the City of Toronto's reconstruction of Marlee Avenue. The route will be split into two parts at Lawrence West Station **during the daytime**, seven days a week. Buses on the 109S (Eglinton West Station-Lawrence West Station) south part of the route will operate every 15 to 18 minutes during the peak periods and midday from Monday to Friday, and the daytime on Saturdays, Sundays, and holidays. Buses on the 109B/109C (Lawrence West Station-Neptune) north part of the route will operate every 12 to 15 minutes during the peak periods and midday from Monday to Friday, and the daytime on Saturdays, Sundays, and holidays. Customers travelling past Lawrence West Station in either direction can transfer between the two halves of the route inside the station.

During the evenings, seven days a week, service will continue to operate along the entire route, from Eglinton West Station to Neptune. There will be no change to service levels at these times, but specific trip times will change.
